

Request for Re-purposed Computers for Schools

Program Description: The State of Indiana makes "surplus" computer hardware available to educational entities under IC 5-22-21-7.5. Completion of this application in its entirety will place applicants in a pool to receive surplus equipment as supplies become available. While orders will generally be filled on a first-come, first served basis, Indiana State Surplus reserves the right to fill emergency requests, or to apportion orders for substantial quantities across the entirety of the wait list of applicants. Indiana State Surplus does not warranty the usability of the surplus equipment. Schools are responsible for pick-up and all transportation costs of the hardware.

Note: Computers are shipped without operating system or applications software. Schools are required to provide the necessary software to make the computers functional for educational use. Schools may wish to contact Net Literacy (www.netliteracy.org), a not-for-profit organization, to help facilitate school's repurposing of computers. Schools seeking to receive XP licenses for donated computers at a cost of \$6.00 per license can contact Net Literacy at <mailto:donkent@netliteracy.org>. Net Literacy also provides schools other resources and programs, including slipstream CDs, service based learning projects, and Internet safety training materials.
